PROFESSIONAL SUMMARY

Performance-driven Computer Science specialist focused on Full-Stack Software Engineering and AI integration. Proficient in architecting scalable backend systems with FastAPI and building responsive, animated frontends using React.js and Next.js. Demonstrated ability to deliver production-ready applications featuring secure JWT authentication architectures, optimized relational databases, and interactive data visualizations.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL, Java, HTML5, CSS3
Frontend Engineering: React.js, Next.js, Tailwind CSS, Framer Motion, State Management
Backend Engineering: FastAPI, Node.js, Express.js, RESTful API Design
Databases & Storage: PostgreSQL, MongoDB, Relational Database Schema Design
Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Clerk Auth, Chart.js
Core Methodologies: CRUD Operations, JWT Authentication, Responsive Web Design, Agile Development

PROFESSIONAL EXPERIENCE

Independent Software Engineer <i>Full-Stack Developer (Personal & Open-Source Projects)</i>	Remote 2025 – Present
- Built and deployed full-stack web applications using Next.js, FastAPI, and PostgreSQL. - Implemented JWT authentication and Clerk-based user management systems. - Designed responsive frontend interfaces using Tailwind CSS and Framer Motion. - Developed RESTful APIs and integrated relational database operations using PostgreSQL. - Created interactive dashboards and analytics visualizations using Chart.js.	

TECHNICAL PROJECTS

SmartExp – AI-Powered Expense Tracker <i>Tech Stack: React.js, FastAPI, PostgreSQL, Chart.js, JWT</i>	Frontend Backend 2025
- Built a personal finance tracking application with categorized expense management and analytics dashboards. - Developed backend APIs using FastAPI for transaction handling and authentication workflows. - Implemented JWT-based authentication and protected application routes. - Designed responsive UI components and interactive financial charts using React.js and Chart.js.	
HireMind – AI Mock Interview Platform <i>Tech Stack: Next.js, Tailwind CSS, Clerk Auth, AI APIs, Vercel</i>	GitHub Repository 2025
- Developing an AI-powered mock interview platform with interview sessions and performance feedback. - Integrated Clerk authentication and protected dashboard routes. - Built structured interview workflows and AI response handling using external APIs. - Designed responsive and animated UI layouts using Tailwind CSS.	
Developer Portfolio & Showcase Site <i>Tech Stack: Next.js, Tailwind CSS, Framer Motion, Vercel</i>	Live Portfolio 2025
- Designed and developed a responsive developer portfolio website. - Added project showcase sections, animations, and optimized layouts. - Implemented SEO improvements and deployment workflows using Vercel.	

KEY ACHIEVEMENTS

- Built and deployed multiple full-stack applications independently using modern web technologies.
- Developed AI-integrated applications and interactive frontend experiences.
- Created production-ready responsive web interfaces using Tailwind CSS and Next.js.
